INTERHOCKEY INSULATING TAPE SPORTSBLUE MAROON is a classic hockey accessory for sticks and equipment when you need to quickly and neatly tape something off during practice or a game. Measuring 25 m in length and 24 mm in width, this insulating tape is ideal for regular use in everyday club activities, such as on the shaft, at smaller contact points, or for simple repairs. The maroon version blends seamlessly into color-coordinated team or stick setups.

- Product Type: Insulating tape for hockey equipment
- Applications: Training, games, and equipment maintenance
- Length: 25 m
- Width: 24 mm

Product information

- Color: maroon
- Benefits: For wrapping, securing, and making repairs to equipment

For club players, coaches, and teams in particular, the most important thing about tape is that it's always within easy reach in your sports bag and can be applied with ease. The 24 mm width is practical for everyday hockey use when you need to apply it precisely without making the wrap too wide. At the same time, the roll length provides enough supply for multiple applications over an extended period. This keeps equipment maintenance simple, whether in the locker room before practice or right before the faceoff at the boards.

When making your selection, it's especially helpful to consider the width and desired color scheme of your equipment.
