Product information

Shin guards in inches: 14inch
Shin guards in cm: 36cm
Shin guard color: black
Shin guard size: SR

WARRIOR ALPHA LT SR is a shin guard designed for regular hockey use, when players need not only protection but also a comfortable fit and plenty of freedom of movement on the ice. Available in 14 inches (36 cm) and size SR, this model is designed for adult players who prefer lightweight, form-fitting gear during practice and games.

- Technology: compression-molded IMPAX foam in key impact zones
- Protection: perforated, lightweight, and contoured slash and calf guards
- Fit: Removable inner padding with a floating Sub-Cell knee area
- Closure: Sling Wrap strap system with Fantom Stretch
- Strap technology: Lay Flat Straps, lie flat and are easy to use
- Size: SR, 14 inches / 36 cm
- Color: black

On the ice, the difference is most noticeable when frequent changes of direction, tight one-on-one battles, and repeated stress combine. The contoured protective areas specifically cover the shin and calf, while the IMPAX foam provides additional cushioning at key points. At the same time, the new inner padding ensures a more comfortable fit around the knee without making the pad feel unnecessarily heavy. The redesigned strap system keeps everything securely in place, and the flat-fitting straps remain pleasantly easy to use when putting the pads on.

When choosing a size, the most important factor is selecting the right length: the 14-inch (36 cm) version and the senior size should match your other gear and your height.
