Product information

Shoe size Europe:	42
Shoe size Skate Size:	7
Shoe color:	black
Shoe width:	R (Regular)
Shoe size:	SR

TRUE CATALYST NITRO WIDE SR is a goalie skate designed for goalies who need to maintain stability in the crease and react quickly to lateral movements. Especially during butterfly saves, short slides, and powerful pushes from post to post, it's crucial how directly the skate responds to the movement. In this black version with a regular width, the model is designed for adult goalies in size SR.

- Product Type: Goalie Skate
- Technology: Nitro platform for responsive goalie skating
- Intended Use: Goalie crease with a focus on control, stability, and agility
- Movement benefits: supports lateral movements, precise edge control, and powerful pushes
- Construction: Depending on the model version, features a carbon-based one-piece shell and thermoformable materials
- Features: Depending on the model version, features an adjustable cuff and a goalie-specific holder with 3-mm steel
- Fit: SR, Skate Size 7, EU 42, Width R (Regular)
- Color: black

During gameplay, the goalkeeper-specific design is particularly noticeable in situations that require quick changes of direction and a secure footing. The design is optimized for direct power transfer without restricting mobility in the goal. This makes it a great fit for ambitious club goalies who train regularly and seek a clear, controlled feel when moving in their gear.

When selecting a pair, in addition to length, the SR size and the Regular fit are particularly important.
