Product information

In everyday hockey, this is exactly what makes the difference: An official puck behaves predictably on the ice, ensuring consistency during passing drills, shooting practice, and game scenarios. This is especially important for active players, coaches, and clubs when exercises need to remain as close as possible to game situations. The SR size aligns with the standard range used in adult and senior hockey and is suitable for team practice as well as for free shooting after ice practice.

Be sure to choose the correct version: JR for youth hockey, SR for senior hockey.
