- Fit: Size-specific selection for youth and adult equipment

A sock holder is one of those small pieces of hockey equipment that quickly becomes essential in everyday play. When socks stay securely in place during movement, the entire setup on the ice looks neater and more composed. This is especially helpful for young players and parents who prioritize clear, straightforward solutions when choosing equipment. At the same time, this model is also appealing to club players looking for a simple and reliable addition to the rest of their gear.

For a snug fit, the size should match the age group and the rest of the equipment.
