Product information

- Fit: Designed to ensure a secure fit for the pants

With a piece of equipment like this, practicality on the ice is what matters most. When hockey pants stay securely in place during quick changes of direction, while skating, or during one-on-one battles, it directly impacts how freely you can move. The JR version is primarily aimed at younger players and parents looking for a simple and practical addition to their existing hockey gear. It's also helpful for everyday club use when gear needs to be put on quickly and stay securely in place on the ice.

To make the right choice, take a look at the desired size category for the hockey pants: JR for youth sizes, SR for adults.
