Product information

PROTEX LACES are a simple yet essential addition to jerseys, pants, or practice gear in everyday hockey life—whether you need a replacement lace or want to swap out your existing ones. The BS model in white offers a understated, clean look and is particularly well-suited for teams, clubs, and players who want to keep their gear practical and neat.

- Product Type: Laces
- Model: BS
- Color: white
- Application: Replacement or exchange on sportswear
- Usage: for tying and securing clothing items
- Assortment: Also available in yellow, navy, red, and black

Especially during regular training and matches, small pieces of equipment are often the first to be overlooked, even though they're essential for ensuring a proper fit. A suitable drawstring helps restore functionality to pants or other garments without having to replace the entire item. This is especially practical in a club setting, where gear is frequently used, washed, and repeatedly prepped.

It's crucial that the length and style match the intended garment.
