Product information

Bag size: YT

The FISCHER TEAM BAG YTH is a hockey bag designed for young players who need to neatly store their equipment after practice or a game and transport it with ease. Especially at the junior level, it's important to have a bag that can withstand the rigors of everyday use and effectively separates wet or heavily used items from other gear.

- Product Type: Hockey carry bag for young players
- Material: durable polyester
- Base construction: fully rubberized and ventilated
- Interior layout: integrated skate pockets
- Carrying comfort: reinforced handles
- Size: YT
- Colors: blue/white, black/yellow, black/red

The rubberized bottom provides better protection against moisture and dirt for the bag's contents when stored in a locker room, arena, or parking lot than a standard design. At the same time, the ventilation helps maintain a more comfortable climate inside, which is especially practical after intense ice sessions. The separate skate pockets help keep things organized and prevent delicate equipment from coming into unnecessary contact with skate blades or residual moisture. Reinforced handles are useful for everyday club activities when the bag is regularly carried, transferred, and stowed in a car.

The YT size is designed for younger players and equipment sets for youth teams.
