Accessory size: 213

HOWIES SHOE LACE 213 CM WAXED is a waxed shoe lace for ice hockey skates, designed for when a secure, even fit is required during practice and games. The length of 213 cm (84 inches) is suitable for skates of that height, and the blue design clearly identifies this version.

- Product Type: Waxed lacing cord for hockey skates
- Length: 213 cm / 84 inches
- Functionality: waxed surface for controlled lacing

Product information

- Applications: Ice hockey, practice, and games
- Variant: blue version
- Package contents: 1 pair of laces

Club players and youth players in particular know the difference when a skate stays laced properly over several ice sessions. A waxed lace grip provides slightly more control when lacing than a standard version and helps distribute tension evenly across the boot shaft. This is especially convenient when skates are put on and taken off regularly, yet the lacing still needs to stay secure.

Above all, it's important to choose the right length for the specific skate. The 213 cm length is intended for taller or larger-sized hockey skates.
