Accessory size: 244

HOWIES 244 CM WAXED SHOELACE BRINGS ORDER AND STABILITY TO SKATES THAT ARE REGULARLY SUBJECTED TO HEAVY USE DURING PRACTICE AND GAMES. The waxed version helps ensure even lacing, so the shoe fits snugly and the tension is maintained evenly across the eyelets. In blue, this length is particularly well-suited for large hockey skates or for players who like to have a little extra slack when lacing up.

- Product Type: Waxed laces for hockey skates
- Length: 244 cm / 96 inches

Product information

- Functionality: waxed surface for controlled lacing
- Training benefit: helps maintain the desired lacing tension
- Color: blue
- Applications: Training, games, and as a replacement for everyday hockey gear

It quickly becomes clear just how important reliable laces are, especially in everyday club life. Anyone who frequently puts on and takes off their skates—or who deliberately chooses to lace them tighter around the instep and slightly looser toward the top—will benefit from a waxed version. It doesn't just slide through like a standard smooth lace and allows for more controlled lacing. This is particularly beneficial for players who don't want to make unnecessary compromises when it comes to fit and support.

The length of 244 cm should match the number of eyelets and the shoe size of the respective skates.
