Accessory size: 274

HOWIES SHOE LACES 274 CM WAXED are extra-long laces for ice skates and other hockey boots where a secure fit and neat lacing are important. The waxed version helps ensure even tightening, so the lacing stays secure during practice and throughout the game. In blue, this length comes in handy where shorter laces quickly run short.

- Product Type: Waxed Shoelace
- Length: 274 cm / 108 inches
- Applications: Hockey skates and ice skates

Product information

- Function: Waxed surface for controlled lacing
- Training benefit: Keeps laces secure with regular use
- Color: blue

In hockey, in particular, reliable lacing makes all the difference. Players who hit the ice several times a week or don't want to constantly re-tighten their laces before practice often specifically choose waxed laces. They generally allow for more precise tightening than simple, uncoated laces and maintain the desired tension better. The 274 cm length is particularly well-suited for taller or larger skate models, which require sufficient slack from the forefoot to the upper shaft.

When making your selection, it's worth taking a quick look at the length you've used so far to ensure the lace fits your skates and your preferred lacing style.
