PROTEX GARTERS keep hockey gear organized, ensuring that shin guards and socks stay securely in place during practice or games. Especially in everyday club life, where gear needs to function quickly, practically, and properly, a simple solution without unnecessary hassle is key.

- Product Type: Garter belts for hockey use
- Application: Securing socks during practice and games
- Model: Protex 355
- Adjustment: Available in several size ranges
- Size: 55 cm - 75 cm, 76 cm - 102 cm, 90 cm - 115 cm

Product information

- Practical benefit: Ensures the equipment stays securely in place on the leg

A sock holder is particularly useful when you want the equipment to remain stable throughout the entire session and avoid the need for readjustments in the locker room or on the bench. In hockey—with its many changes of direction and the close fit between shin guards, socks, and undergarments—this makes a noticeable difference in everyday play. This model is therefore particularly suitable for club players as well as for parents who want a clear and straightforward addition to their children's gear.

The appropriate size range—from approximately 55 cm to 115 cm—helps ensure the garter fits the player's body shape and equipment combination.
