Stock type: Pair

ZERO KUFÉ BR XS is a compact replacement blade for hockey skates, designed primarily for youth players and clubs where equipment needs to be back in action quickly. The XS version, measuring 221 mm, is suitable for smaller setups and is available as a pair. The stainless steel material ensures a sturdy, durable base on the ice for everyday use.

- Product Type: Replacement blade for hockey skates
 - Material: stainless steel
 - Size: XS

Product information

- Length: 221 mm
- Model: BR
- Package Contents: 1 pair

Especially for youth skaters or during regular training sessions, it's important to have a blade that's easy to identify and install properly. The short length of 221 mm is ideal for smaller skate sizes and provides a direct skating feel—exactly what's needed on the ice during quick changes of direction and when accelerating. Supplied as a pair, this blade is well-suited for replacing both sides in a single step, ensuring the setup is properly balanced on the boot again.

Before installation, it's worth quickly checking whether the length, XS size, and BR model match your existing blade holder.
