More than 10 in stock

Stock type: Pair

TRUE KUFE SHIFT MAX DLC is a replacement blade for hockey players who don't want to compromise their playing rhythm when switching to fresh edges. The 212 mm version is designed for compatible TRUE setups with the Shift system and, as a pair, is a solid choice for regular use in practice and games.

- Product Type: Replacement blade for hockey skates
 - System: TRUE Shift MAX DLC
 - Variant: Length 212 mm
-

Product information

- Packaging: Pair
- Applications: Ice hockey, training, and games
- Installation: For skates with a compatible Shift mount

A reliable spare blade makes all the difference, especially in everyday club life: Whether the edge is wearing down or you need to switch blades at the last minute before your next game, having a compatible pair saves time and keeps your skating feel closer to your usual setup. The designation MAX DLC indicates a specific model within the TRUE Shift line, which is particularly relevant for players who carefully coordinate their equipment and don't want to rely on just any standard solution when changing blades.

It's important to ensure the correct length of 212 mm as well as compatibility with the existing TRUE Shift holder.
