Stock type: Pair

TRUE KUFE SHIFT MAX SS is a replacement blade set for hockey skates with a Shift-Max mount. The 212-mm length is designed to fit specific boot and frame sizes and is especially important during practice or games when a fresh, cleanly sharpened blade is needed without a long interruption.

- Product Type: Replacement blades for ice hockey skates
- System: TRUE Shift MAX SS
- Length: 212 mm

Product information

- Packaging: Pair
- Application: Replacement blades for training and games
- Compatibility: Fits skates with Shift MAX SS blade mounts
- Contents: 1 pair of blades

Especially when skating regularly, having a matching set of replacement blades is worthwhile: A second pair makes everyday life at the club easier, whether you need to have them resharpened or require a quick replacement before your next session. The Shift MAX SS system provides the appropriate interface within the TRUE setup, meaning the blade is not intended as a general-purpose standard model but rather for models equipped with this specific system.

It is important to ensure the correct length of 212 mm as well as compatibility with the existing blade mount on the skate.
