Product information

The EXEL AVENGER BASKET 7 MM is a stick end cap for floorball sticks and is one of those small components that quickly become essential during practice and games. The basket sits at the end of the shaft, protects the tip of the stick, and ensures a secure grip in the upper hand. In the orange-and-black version, it visually complements many EXEL setups.

- Product Type: Basket for floorball sticks
- Compatible with: 7 mm shaft end
- Function: End cap and grip aid at the top of the stick
- Color: orange, black
- Available sizes: 35 mm, 45 mm, 60 mm, 70 mm
- Salesunit: Price per piece

A matching basket is especially worthwhile for everyday club use or with frequently used training sticks, as it keeps the stick neatly finished and ensures a comfortable grip. For youth players, teams, and coaches, this is also practical when replacing individual parts if existing sticks are to be reused. The various sizes provide flexibility in matching the shaft and personal grip feel without having to completely rebuild the stick.

It's important to check the 7 mm alignment and the desired size before making your selection.
