The EXEL XC AVENGER BASKET BLACK is a pole basket for cross-country skis with a 10-mm mount and a race-oriented design. Especially on hard trails, in changing conditions, and during regular training, a snugly fitting basket plays an important role because the pole should remain stable and under control.

- Product Type: Pole basket for cross-country skis
 - Mount: 10 mm
 - Construction: XC Avenger Race Basket
 - Intended use: Cross-country skiing, training, and competition-level use
 - Color: Black
-

Product information

- Sizes: 35 mm, 45 mm, 60 mm, 70 mm
- Package Contents: 1 pair of pole baskets

The compact Race model is designed primarily for cross-country skiers who tailor their poles specifically to the intended use and snow conditions. A smaller basket, such as the 35 mm, works well in fast, firm conditions, while larger sizes provide more surface area when the snow becomes softer. This makes this accessory particularly suitable for club athletes and ambitious skiers who don't want to improvise unnecessarily with their equipment and prefer a clear, functional solution for wear parts.

It is important to ensure 10-mm compatibility with the existing pole.
