Stock type: Pair

The CCM E-BLADE Blade is a replacement blade for hockey players who need to quickly replace a worn-out or damaged blade during regular training or games. At 230 mm, this model is designed for setups that require exactly this length. The set is sold as a pair.

- Product Type: Replacement blade for hockey skates
- Model: E-Blade
- Length: 230 mm

Product information

- Contents: 1 pair of blades
- Application: Replacement of worn or damaged blades
- Sport: Ice hockey

Especially with regular ice use, the condition of the blades plays a major role in ensuring a smooth glide and reliable power transfer when turning, accelerating, and making quick changes in direction. A fresh replacement blade is therefore especially important for club players and ambitious youth players who need to rely on their equipment and want to avoid downtime. The pair set makes it easy to replace both blades at once.

It's important to ensure the correct length of 230 mm as well as compatibility with the existing blade holder on the skate.
