Accessory color: orange

Color: orange

REVISION WHEELS CLINGER OUTDOOR (4-PACK) is a set of roller hockey wheels designed for use on outdoor surfaces. The orange version, with a 59 mm diameter, is primarily designed for players who want to replace worn-out wheels or put together a setup for hard outdoor surfaces. Especially during regular training, it's important to have a wheel that matches the surface and the frame size.

Product information

- Product Type: Wheels for inline hockey / roller hockey
- IntendedUse: Outdoor
- Size: 59 mm
- Color: orange
- Package contents: 4 wheels
- Other sizes: 68, 72, 76, 80 mm

When it comes to outdoor wheels, the focus is on achieving the right balance between the surface and the skate. Smaller diameters, such as 59 mm, are particularly useful when the frame design specifies this size or when a suitable replacement for existing wheels is needed. For club players and teams, a 4-pack is also convenient when individual wheels on the skate need to be replaced without having to swap out the entire set.

Before making your selection, briefly check which wheel sizes the existing frame accommodates at the front and rear.
