6 in stock

Shoe width: D (Regular)

The MARSBLADE O1 KRAFT CREW SR is an off-ice skate designed for players who want to work on their skating feel, balance, and push-off even when they're off the ice. Available in skate size 6.5 with a regular D width, this model is designed for senior players seeking a classic fit and wanting to replicate the typical movement patterns from hockey training as closely as possible.

- Product Type: Off-ice hockey skate for senior players
- System: Marsblade O1 chassis with flexible skating characteristics

Product information

- Training benefits: supports hockey-specific movement patterns off the ice
- Applications: Technique, skating, and athletic training
- Fit: D width (Regular)
- Size: Skate Size 6.5
- Model: KRAFT CREW SR

An off-ice model like this is particularly useful during summer training or between ice sessions if you want to maintain your sense of movement. Marsblade's O1 construction is well-known in the hockey world for replicating push-off and weight transfer more dynamically than a rigid inline skate design. This makes training particularly realistic for club players and ambitious recreational players—for example, when working on edge control, stride length, and maintaining a clean center of gravity.

When selecting a pair, in addition to the senior model, the most important factors are the correct skate size and the standard D fit.
