Stock type: Pair

The CCM SPEEDBLADE XS1 +4 MM blade is a replacement blade for ice hockey skates with the XS1 system and is designed primarily for players who skate regularly in practice and games, for whom a smooth blade change and a consistent skating feel are important. The 255 mm version is sold as a pair and is designated as Pro +4.

- Product Type: Replacement blade for ice hockey skates
- System: SpeedBlade XS1
- Model: Pro +4

Product information

- Length: 255 mm
- Package contents: 1 pair
- IntendedUse: Training and games on the ice

A suitable replacement blade makes all the difference, especially in everyday club life. Whether you need to react quickly during practice or need a fresh set before a game, what matters most is that the system and length match your existing skates. The SpeedBlade XS1 blade is designed to work with the corresponding mounting system, making it ideal for players who want to keep their equipment reliable and ready for action without any hassle. The “Pro +4” designation indicates a slightly more specialized version and is particularly appealing to skaters who carefully select their setup.

Key factors to consider when selecting this blade are compatibility with the XS1 holder and the correct blade length of 255 mm.
