Stock type: Pair

BLADETECH KUFÉ EDGE BLACK is a pair of blades for hockey players who look for a clear, compatible option when replacing their blades. With a length of 263 mm and a black finish, this set is designed for players who want to supplement or replace their existing blade holder with a compatible EDGE blade.

- Product Type: Replacement blades for hockey skates
- System: EDGE
- Color: black

Product information

- Length: 263 mm
- Package Contents: 1 pair of blades
- IntendedUse: Replacement or spare for training and games

Especially in everyday club life, a suitable replacement blade is more than just an accessory. Anyone who regularly takes to the ice knows that moment when worn-out or damaged blades noticeably affect your skating. A new pair restores a solid foundation for stable edge work, controlled direction changes, and a familiar feel underfoot. The EDGE model is particularly relevant for players who want to continue using their existing setup rather than switching unnecessarily.

It's important to ensure a precise fit with the mount and boot size. The length of 263 mm should be checked against the existing mount before installation.
