Stock type: Pair

TRUE TRUE KUFE SHIFT STAINLESS STEEL is a pair of blades designed for Shift holders and is intended primarily for players who train and play regularly and who are looking for a clear, suitable solution when changing blades. Made of stainless steel and measuring 280 mm, this design is built for everyday hockey use with repeated time on the ice.

- Product Type: Pair of blades for ice hockey skates
- System: Compatible with TRUE Shift
- Material: Stainless Steel

Product information

- Length: 280 mm
- Contents: 1 pair of blades
- IntendedUse: Replacement or swap during games and practices

A properly balanced blade setup plays a particularly important role for players who use their skates regularly. A compatible pair for the Shift system makes replacement easier and keeps the equipment ready for use when there's little time for detours during everyday club activities. The stainless steel version is a classic choice in ice hockey when a sturdy blade is needed for ongoing use.

It's important to ensure the correct length matches the existing holder. This 280 mm version is designed for that purpose.
