## Product information

---

- Fit: Fits the selected skate size

Especially with frequently used skates, a fresh tongue makes a noticeable difference in everyday use because the skate sits properly again in the instep area and the overall feel remains more comfortable. For club players and ambitious youth players—for whom equipment needs to perform not only during games but also week after week in practice—replacing the tongue is often a more sensible option than rushing to replace the entire skate.

When selecting a replacement, the tongue size should match that of your existing hockey skate. This pair is available in size 11.
