3 in stock

Shoe width: D (Regular)

The MARSBLADE R1 KRAFT TEAM SR is an off-ice hockey skate for adults, designed for training with a motion pattern modeled after ice skating. This setup is particularly appealing to club players who want to work on their technique, edge control, and push-off even off the ice, because the flexible Marsblade construction brings more dynamism to the skating motion than a rigid inline chassis.

- Product Type: Off-Ice Hockey Skate (Senior)
- System: Marsblade R1 chassis with flexible construction

Product information

- Training benefits: supports a movement pattern similar to ice hockey off the ice
- Model: Kraft Team
- Fit: Shoe width D, Regular
- AgeGroup: SR
- Sizes: Skate sizes 5 to 11.5, including half sizes

During training, the synergy between the hockey boot and the R1 system is particularly noticeable. The skating motion feels more dynamic because the chassis isn't rigid. This is especially valuable during off-ice sessions when working on balance, building pressure, and a clean push-off. For players in regular club programs who want to tailor their summer training specifically to hockey, this is precisely what sets these skates apart from basic inline skates.

The D-Regular fit is suitable for a standard shoe width. When choosing a size, it helps to compare the listed skate size with your usual hockey skate size.
