TRUE TRUE SKATE BLADES SHIFT BLACK is a pair of blades for hockey skates, compatible with the TRUE Shift System. With a blade length of 254 mm, this model is designed for players who train and play regularly and who, when changing blades, prioritize a seamless fit with their existing blade holder.

- System: Compatible with TRUE Shift
- Product Type: Blade set / Pair of blades for hockey skates

Product information

- Length: 254 mm
- Color: black
- Package contents: 1 pair
- Intended Use: Replacement or spare parts for everyday ice hockey use

Especially in everyday club play, it's important that replacement parts fit seamlessly with existing equipment. A pair of blades like this is therefore particularly appealing to players and teams who plan equipment changes carefully and without experimentation. The length of 254 mm is the key factor for compatibility with your existing boot or blade holder. The black finish maintains a sleek, sporty look that complements the overall appearance of your equipment.

Before installation, it's worth doing a quick check to ensure that the blade holder and blade length match your existing TRUE Shift setup exactly.
