3 in stock

Stock type: Pair

TRUE KUFE DLC SHIFT is a replacement blade set for hockey players who use TRUE Shift holders and need a compatible 230 mm replacement blade. Especially during practice and games, a second blade is often more than just a spare: A quick change saves time and keeps your equipment ready for action when it's time for a regrind or replacement.

- Product Type: Replacement blades for ice hockey skates
- System: Shift
- Finish: DLC

Product information

- Length: 230 mm
- Package contents: 1 pair
- Intended Use: Training, games, and blade replacement in everyday hockey

The TRUE KUFÉ DLC SHIFT 230 mm pair is primarily designed for players who participate regularly in club activities and require equipment that performs reliably. The Shift system ensures compatibility with the appropriate blade holder, making blade changes particularly convenient for everyday use. The DLC version, as a clearly designated variant, is a key distinction from the standard blade and plays a central role in the precise customization of equipment. With a length of 230 mm, this pair is suitable for skates that require exactly this measurement.

When selecting blades, the blade length should be matched to the holder and the skate.
