Stock type: Pair

TRUE KUFE STAINLESS SHIFT is a pair of replacement blades for hockey skates with the Shift system. Anyone who regularly plays on the ice knows the difference when the blade runs smoothly and you can prepare for a shift without having to go through the sharpening machine or take long breaks in the locker room. The 230 mm version is designed for players who want to keep their equipment properly matched to their chassis.

- Product Type: Replacement blades for ice hockey skates
 - System: Compatible with TRUE Shift
-

Product information

- Material: Stainless
- Length: 230 mm
- Packaging: Pair
- Usage: Training, games, and quick blade replacement

Especially in everyday club life or when skating multiple times a week, a well-matched spare pair is more than just a backup. Stainless blades are the classic choice for regular use on the ice, while the Shift system is designed for easy replacement. This is particularly beneficial for players who don't want a long interruption in play due to damage, after sharpening, or when changing equipment. This ensures that the skating feel remains closer to the skate's usual setup.

It's important to choose the correct length for the TRUE Shift holder you're using. This is the 230 mm version.
