Textile size-1: SR

AYCANE BLADE X COMBI PANTS are designed for intense hockey play, when protection and mobility are both essential. The pants feature cut protection on the thighs and around the Achilles tendons and remain flexible thanks to German-made stretch fabric—a benefit that's especially noticeable during regular training and day-to-day gameplay.

- Product Type: Hybrid Pants for Hockey
- Protection areas: Thighs and Achilles tendons
- Material: Stretch fabric, developed in Germany
- Fit: Compressive and form-fitting
- Waistband: ventilated design
- Mobility: High freedom of movement during dynamic activities
- Sizes: S, M, L, XL, XXL
- Variant: SR

Performance-oriented field players and club players in particular benefit from pants that don't get in the way during quick changes of direction, deep positions, and extended training sessions. The compression fit keeps the pants close to the body, while the ventilated waistband enhances comfort during intense activity. Combined with the elastic construction, this creates a more direct, stable feel during movement than with standard pants that offer less support.

For optimal performance in everyday hockey play, choose a size that ensures a snug fit without restricting movement.
