Product information

AYCANE AYCANE SOCKS A-SHIELD SR ANTHRACITE are designed for ambitious ice hockey players who want to combine a direct feel for the ice with added protection during practice and games. These skate socks are designed for high-intensity use and feature an exceptionally lightweight foot construction to ensure precise and clean contact inside the skate.

- Technology: exclusive cut-resistant yarn
- Protection: Tested to ANSI/ISEA A5 standards
- Intended use: ice hockey, practice, and games
- Construction: ultra-lightweight foot construction with an anatomical shape
- Comfort: Seamless toe area and targeted padding
- Moisture management: moisture-wicking chimney construction, quick-drying
- Additional features: odor-resistant, easier to put on and take off
- Sizes: XS, S, M, L, XL

Especially for club players who often participate in multiple ice sessions per week, the combination of light weight, a dry feel, and supportive cushioning quickly makes a difference. The feel inside the skate remains direct, while the seamless toe box reduces friction. Added to this is a cut-resistant design, as required in performance-oriented hockey. The anthracite-colored version has a simple and sporty look.

To ensure the right fit in the skate, choose a size that provides a snug, clean fit without any wrinkles.
