In ice hockey in particular, the right clothing—along with the right equipment—makes a noticeable difference. Thermal pants like these keep the lower body comfortably warm during breaks with a lot of movement and fit well into routines that involve quick transitions between the locker room, the arena, and the ice. This is especially practical for players in regular training, because extra warmth is often needed precisely when the body isn't constantly in motion.

When choosing a size, refer to the standard adult fit; sizes range from S to XXXL.
