Product information

Shoe width: S

The TRUE TF7 JR is a junior ice hockey skate designed for young players who already train regularly on the ice and are looking for a skate with a direct, snug fit. The one-piece, thermoformable fiberglass shell brings key features of TRUE skate technology to a junior model: lightweight construction, a precise fit, and a responsive skating feel.

- Construction: one-piece, thermoformable fiberglass shell
- Fit: anatomically designed for a snug, direct fit
- Blade holder: SHIFT holder with BenchChange technology
- Blade replacement: quick replacement without magnetic tools for attachment
- Lining: antimicrobial and moisture-wicking
- Comfort: high-density foam and anatomically shaped felt tongue
- Boot width: S
- Sizes: Skate sizes 2.5 to 5.5

A well-fitting skate makes a big difference, especially for young skaters: changes of direction, acceleration, and edge work feel more controlled when the boot securely wraps around the foot. Added to this is an inner lining that wicks away moisture more effectively and stays comfortable even with multiple ice sessions per week. The SHIFT blade holder is especially practical for everyday use when you need to change blades quickly.

The narrow S width is designed for narrower feet. With junior skates, it's important to choose the size carefully to ensure optimal support and flexibility of the shell.
