Product information

Shoe width: S

TRUE TRUE TF9 JR is a junior ice hockey boot designed for young players who are already looking for a more precise fit and a more responsive feel during practice and games. Available here in the narrow S width, this model is designed for children and teens with slimmer feet, for whom a precise fit is especially important.

- Product Type: Junior Ice Hockey Skate
- Model: TF9 JR
- Fit: Narrow width S
- IntendedUse: Ice hockey training and games
- Agegroup: JR
- Sizes: Skate sizes 2.5 to 5.5
- Selected size: 5.5

Especially in the junior category, the fit often makes all the difference: A boot that snugly wraps around the foot supports stable edge work, controlled changes of direction, and a smoother feel during acceleration and stops. This is especially relevant for ambitious young players and for parents who pay attention not only to size but also to width when choosing equipment. The TF9 JR is positioned as a performance-oriented junior skate, without overloading the description with unsubstantiated technical claims.

In addition to the skate size, the narrow width (S) is particularly important when selecting a shoe to ensure a proper fit in the heel and midfoot areas.
