7 in stock

Stick size: INT
Player hardness: 55
Color: black

TRUE Catalyst 3X INT is a lightweight hockey stick for intermediate-level junior players who are looking for a direct feel and want to accelerate smoothly during both practice and games. The Catalyst line is designed for light weight and combines this with noticeable stability in the shaft and blade.

Product information

- Technology: PLD, PASS, and BAT technologies for weight reduction and increased blade stiffness
- Construction: double-concave shaft with square corners
- Kick Point: Mid kick point with flex in the middle zone
- Taper Zone: Designed to be stiff for more precise guidance and control
- Grip: Soft, glossy grip
- Face finish: matte
- Variant: INT, hardness 55, bend T92.5 / TC2.5T
- Blade orientation: left or right

On the ice, the combination of a lightweight construction and mid-kick is particularly noticeable when quick shots and fast passes on the move are required. The flex in the mid-zone loads the shaft well, while the stiffer taper zone helps guide the puck with control. Added to this is the distinctive shaft shape, which fits clearly in the hands and provides a consistent feel during repetitive movements in team practice.

When selecting a stick, pay attention to the blade orientation, appropriate flex, and the intermediate model.
