Color: black

Stick size: SR

The FISCHER W350 blade is an indoor hockey blade designed for adult players who prioritize a precise match between the curve and the side when replacing or customizing their stick. The ABS version, classified in the 4-liter category, positions this model among the robust indoor hockey blades required for regular training and games.

- Product Type: Indoor hockey blade
 - Model: W350

Product information

- Material: ABS
- Volume: 4 L
- Curvature: 23.4
- Stick type: left or right
- Size: SR
- Color: black

Especially in indoor field hockey, the right blade makes a noticeable difference in playmaking and ball control. The 23.4 curvature is designed for players seeking a familiar feel for the ball and a solid technical foundation. Thanks to its SR size, the blade is suitable for adults, making it particularly appealing to club players and teams that want to continue using their existing sticks or replace them selectively. The black design remains simple and sporty.

It's important to choose the correct side: left or right must match the usual blade orientation of your stick.
