Protection size-1: SR

The FISCHER RC ONE IS2 SR is a protective vest designed for hockey, where mobility and reliable coverage must go hand in hand. The anatomically contoured fit hugs the body without unnecessarily restricting movement, which is especially important during practice and games involving frequent changes of direction.

- Product Type: Protective vest for hockey
- Fit: anatomically contoured
- Protection areas: shoulders, chest, and back

Product information

- Construction: Plastic protectors with additional reinforcements
- Padding: medium-density foam
- Ventilation: Polyester lining that keeps you cool and dry
- Size: SR
- Body protector sizes: S/M and L/XL

This model offers a clear advantage, especially for club players who train regularly and are looking for reliable protective gear: hard shells in key areas are supplemented with foam reinforcements, ensuring that blows and impacts do not strike the torso directly. At the same time, the ventilated lining helps ensure the vest remains comfortable to wear even during intense training sessions.

When selecting a size, it's worth taking a close look at the appropriate body protector size to ensure the protective panels fit snugly against the shoulders, chest, and back.
