in Delivery between **Thu 29. Oct - Mon 02. Nov 2026**

6 in stock

Product information

Color: red

The CCM HT 310 TACKS RED is an ice hockey helmet designed for players who are looking for a secure fit, sophisticated cushioning, and a modern, compact design for regular practice and games. Especially in everyday club play, when equipment needs to perform reliably, a helmet that effectively combines protection and comfort is essential.

- Technology: R3FLEX Protection
- Cushioning: dual-density foams for dynamic impact management
- Inner Lining: 3D-molded and fully covering
- Construction: lightweight, ventilated helmet shell
- Fit: Slim, deep shell shape for a snug fit
- Intended Use: Ice hockey training and games
- Color: red
- Size: S, M, or L

In hockey, the interplay of shape, ventilation, and interior design is particularly noticeable. The 3D-molded liner fits snugly across the entire surface, helping to keep the helmet securely in place on the head, while the ventilated construction promotes air circulation during intense play. Added to this is the combination of R3FLEX Protection and double-density foam, designed for areas where impact management is particularly important. For youth and club players who are on the ice several times a week, this is a clear upgrade over basic models.

When selecting a helmet, take a close look at the appropriate size—S, M, or L—to ensure a clean and even fit.
