Product information

Color: black

The CCM FM580 Face Mask is a full-face mask for ice hockey that combines clear vision with a comfortable fit during games and regular practice. Particularly notable is the chin guard made of multi-density foam, which makes the contact area noticeably more comfortable when the equipment is worn during longer sessions.

- Product Type: Full-face hockey mask
- Construction: thin, round wires
- Chin guard: multi-density foam
- Field of view: Designed for a clear view of the game
- Protection area: Face area during hockey play
- Color: black
- Sizes: XS, S, M, L

A well-constructed face guard is especially crucial for youth players, club players, and parents who prioritize a balanced combination of protection and comfort when selecting equipment. The relatively fine wire construction keeps the field of view open, ensuring that the puck, teammates, and play remain clearly visible. At the same time, the multi-layer foam at the chin provides a more comfortable fit, which is especially noticeable during frequent ice time and longer practices.

The size should be chosen to match the helmet being used so that the cage fits snugly and integrates seamlessly into the gear.
