Product information

WINWELL WINNWELL NG0200 is a lightweight neck guard designed for everyday hockey use, combining flexibility with reliable materials. Especially for youth players and during regular practice, there's a need for slim-fitting protection that doesn't add unnecessary bulk and can be neatly integrated into your gear.

- Product Type: Neck protector for hockey
- Features: thin and lightweight design
- Fit: adjustable
- Construction: Polyester fibers with KEVLAR
- Protection area: cut-resistant design in the neck area
- Certification: BNQ- and CE-certified
- Size: SR, YT

During games and practice, a comfortable fit around the neck is essential. That's exactly where this model excels: Its lightweight, slim design is less bulky under other protective gear, while the adjustable design makes it easy to customize the fit. The combination of polyester fibers and KEVLAR is designed for cut-resistant protection, making it a good fit for players and parents who look for transparent safety features in their gear. Thanks to its BNQ and CE certifications, this model fits seamlessly into structured training and club environments.

When selecting a size, check whether SR or YT is the right fit so that the neck guard sits snugly and works seamlessly with the rest of the gear.
