8 in stock

Product information

Color: white

The CCM HTC 310 TACKS WHITE is an ice hockey helmet designed for players who are looking for a secure, comfortable fit with a modern, sleek design for both practice and games. Especially in everyday club play, when the helmet needs to stay secure and comfortable during long periods on the ice, the combination of fit, protection, and ventilation is key.

- Technology: R3FLEX Protection
- Protection Concept: Dynamic impact management with double-density foam
- Inner Lining: Full-coverage and 3D-molded
- Construction: Lightweight, ventilated shell with a low-profile design
- Ventilation: Air circulation for intense play
- IntendedUse: Ice hockey, training, and games
- Color: white
- Size: S, M, or L

The TACKS 310 is designed primarily for performance-oriented players as well as ambitious youth players who need a helmet that not only protects but also stays comfortable to wear throughout many training sessions. The 3D-molded inner lining fully envelops the head, while R3FLEX Protection and dual-density foam effectively complement the protective design. Added to this is the ventilated, lightweight construction, which ensures a comfortable fit on the ice without adding unnecessary bulk.

To ensure the right fit, take a close look at the desired helmet size—S, M, or L—so the helmet sits securely and evenly.
