Product information

Color: navy

The CCM HTC 310 TACKS NAVY is an ice hockey helmet designed for players who are looking for a secure, comfortable fit with a modern, lightweight design for both practice and games. Especially during regular sessions on the ice, it's important to have a helmet that stays securely in place, is well-ventilated, and combines protective features with a compact profile.

- Technology: R3FLEX Protection with double-density foam
- Inner Lining: 3D-molded and fully covering
- Protection concept: dynamic impact management in key zones
- Construction: Lightweight, ventilated shell with a low profile
- Fit: Designed for a comfortable and secure fit
- Intended Use: Ice hockey for practice, tournaments, and games
- Color: Navy
- Sizes: S, M, L

In everyday hockey play, this design really shines when speed, quick changes of direction, and tight game situations come together. The 3D-molded inner lining provides a snug, full-coverage fit, while R3FLEX Protection and the foam construction clearly set this helmet apart from basic models. At the same time, the ventilated design ensures a comfortable fit, even when the strain remains high over multiple games. The sleek shell shape looks clean and athletic on the ice without losing sight of its functional focus.

For a proper fit, it's important to choose the size based on head circumference and fit chart so that the helmet sits evenly and remains secure.
