Product information

Color: red

The CCM HTC 210 TACKS RED is a hockey helmet designed for players looking for a compact, sport-oriented fit on the ice. Its sleek, low-profile design is intended to minimize gaps inside the helmet and ensure a snug fit. This snug, secure fit is especially important during regular practice and everyday club activities, as the helmet stays in place and integrates naturally into your overall gear setup.

- Product Type: Hockey Helmet
- Construction: slim, low-profile design
- Fit: Designed to minimize gaps in the inner lining and provide a snug fit
- IntendedUse: Training and games on the ice
- Color: red
- Sizes: S, M, L

A helmet that isn't unnecessarily bulky yet still provides a secure, snug fit is especially important for youth and club players. That's exactly where this TACKS model comes in: The design remains modern and understated, while the fit is optimized for a secure, stable fit. This can be a real advantage during games, when quick changes of direction, battles along the boards, and countless hours of practice demand a helmet you can rely on.

Choose the right size so that the helmet fits evenly and sits comfortably without causing pressure points.

Important: No hockey helmet can prevent or completely rule out head injuries or concussions.
