Product information

Color: white

The CCM HTC 210 TACKS WHITE is a hockey helmet designed for players looking for a compact, sport-oriented fit on the ice. The TACKS design is engineered for a sleek, low-profile fit and, according to the manufacturer, minimizes gaps inside the helmet so it sits closer to the head and stays more secure during play.

- Product Type: Hockey Helmet
- Fit: low profile with a snug fit
- Construction: Designed to minimize gaps in the inner lining
- Benefits: More stable fit during practice and games
- Intended use: Ice hockey
- Color: white
- Sizes: S, M, L
- Note: A helmet cannot completely eliminate the risk of head injuries, including concussions

A helmet that fits properly makes a noticeable difference, especially for club players and ambitious young players. When the helmet stays close to the head, it often feels more natural on the ice—whether changing direction, battling along the boards, or during longer practice sessions. The white version blends in classically with many team uniforms and pairs well with existing protective gear.

When choosing a helmet, the most important factor is finding the right size so that it fits evenly and without any uncomfortable gaps.
