Product information

Glove color: black

The TRUE XC9 BLACK JR is a junior hockey glove designed for young players who value agility and a secure grip just as much as solid protection during daily practice and games. The tapered fit hugs the hand closely and supports natural stick handling without feeling stiff.

- Fit: tapered, anatomically contoured to the shape of the hand
- Back of the hand: 15-panel construction for greater flexibility
- Finger construction: 3-piece for flexible gripping
- Thumb: TRUEFLEXX+ locking thumb for mobility and flexibility
- Padding: 24 mm Pro Grade EPP foam with PE inserts
- Palm: AX suede with TRUE BLUE AX suede overlay
- Outer material: Nylon with textured PU
- Sizes: 11 inches, 12 inches

A well-balanced glove design really makes a difference, especially for junior players: The multi-panel construction on the back of the hand and fingers keeps hands agile when receiving passes, setting up shots, or engaging in one-on-one battles. At the same time, the sturdy EPP padding with PE inserts provides durability for regular ice time. The AX suede palm enhances the direct feel of the stick, while the flexible cuff allows for greater wrist mobility. In black, the model has a sleek and sporty look.

When choosing junior gloves, it's worth checking the length to ensure that the fingers and wrist are properly covered.
