Product information

Glove color: navy

TRUE XC9 NAVY JR is a junior hockey glove designed for young players looking for a flexible fit with noticeable support during practice and games. The tapered shape hugs the hand more closely, which is particularly noticeable during quick stick movements and provides a secure grip on the ice.

- Fit: Tapered, anatomically contoured to the hand
- Palm: AX suede with sewn-in TRUE BLUE AX suede overlay
- Protection: 24 mm Pro Grade EPP foam with PE inserts
- Construction: 15-piece back of the hand and 3-piece fingers
- Thumb: TRUEFLEX+ locking thumb for greater mobility
- Cuff: Ergonomically flexible for unrestricted wrist movement
- Material: Outer shell made of nylon and textured PU
- Size: 11 inches or 12 inches

In everyday hockey, it's not just about protection—it's also about how naturally a glove moves when receiving the puck, shooting, and handling the stick. This is exactly where this junior model comes in: The split construction on the back of the hand and fingers keeps the hand flexible, while EPP foam and PE inserts clearly set this model apart from a simple standard design. Add to that the soft AX suede palm and the flexible cuff, which enhance stick control without unnecessarily restricting wrist movement. Available in navy, the glove fits well into regular club play.

When selecting a size, the key factor is choosing the right length—11 or 12 inches—to ensure a proper fit and freedom of movement for junior players.
