Product information

Glove color: navy

TRUE CATALYST 7X3 NAVY JR is a junior hockey glove designed for regular use on the ice, when a perfect balance between stick feel and hand coverage is essential during practice and games. The navy-colored design has a classic look and pairs well with standard youth team gear.

- Product Type: Junior Hockey Gloves
- Model: HG Catalyst 7X3 JR
- Intended Use: Youth ice hockey training and games
- Color: navy
- Sizes: 10 inches, 11 inches, 12 inches
- Fit: Designed for junior sizes

Especially for younger players, it's important to have a glove that doesn't unnecessarily restrict stick movement and performs reliably during everyday play on the ice. This model is therefore primarily aimed at youth and club programs, where the right size, a comfortable fit, and reliable equipment are more important than excessive details. For parents and teams, the clear size gradation is helpful when selecting equipment based on age, hand size, and frequency of use.

When selecting junior gloves, it's worth taking a close look at the length in inches to ensure the fit and mobility match the hand size.
