The CCM Groin Guard Jock Combo is a practical solution for players who prioritize basic protection and a secure fit for their equipment while playing ice hockey. The jock protects sensitive areas, while the integrated sock holder keeps the socks in place. Especially during practice and regular club activities, it's important to have gear that fits snugly without requiring frequent readjustments and doesn't unnecessarily restrict movement.

- Product Type: Groin guard with sock holder
- Protection area: sensitive areas of the lower body
- Fit: Hip strap and two leg straps for a secure fit
- Wearing system: combines protection and support in one piece

Product information

- Comfort: Designed for a comfortable fit during movement
- Intended use: Ice hockey training and games
- Sizes: S, L, XL, XXL

The combination of a waist strap and two thigh straps ensures that the groin guard stays securely in place even during changes of direction, sprints, and longer practice sessions. This is particularly beneficial for club players and youth players, who need equipment that functions reliably and doesn't require constant readjustment in the locker room. At the same time, the combo saves time when putting on hockey gear compared to separate solutions.

When choosing a size, it's worth considering the desired fit at the waist and thighs to ensure that the protection and support work together effectively.
