The CATALYST 7X5 is primarily designed for goalies in competitive club settings who are regularly on the ice and don't want to make any unnecessary compromises when it comes to their gear. The IBP construction provides support in areas where contact and pressure frequently occur during goalkeeping, without making the pants feel bulky. At the same time, the ventilated inner lining helps maintain a more comfortable wearing experience even during high-intensity play. This ensures the pants remain controllable and comfortable to wear during dynamic phases of the game.

When selecting a pair, it's worth taking a close look at the senior sizes as well as the desired fit within sizes S through XL.
