Product information

Goalkeeper color: black

Goalkeeper size: INT

TRUE WARRIOR CATALYST 9X5 SR BLACK are goalie pants designed for ambitious goalies who need not only protection but, above all, freedom of movement during the game. It's especially during quick changes of direction, when chasing down a rebound, or when explosively getting up from the butterfly position that you really see how crucial a flexible design is in goal.

- Product Type: Ice hockey goalie pants
- Technology: IBP 3D-molded back frame
- Protection: Double-layered hip pads and reinforced impact protection in high-impact zones
- Mobility: Internal stretch panels for unrestricted upper-body movement
- Fit: Flexible, adjustable waistband
- Construction: Lightweight and water-repellent
- Size: SR in INT, available in S, M, and L
- Color: black

The design is clearly geared toward the demanding daily routine of a goalkeeper: protection where the most stress occurs—in the slot and during lateral movements—combined with a construction that doesn't restrict movement. The back panel and hip pads are designed for intense game situations, while stretch zones and the waistband allow for greater freedom of movement in the upper body. This is especially noticeable when you need to react quickly to the next shot and the pants need to move with you in every motion.

For the senior lineup, it's worth taking a quick look at the corresponding INT size in S, M, or L.
