TRUE HOLDER SHIFT GOALER is a holder for goalie skates designed for goalies who need a clear, well-fitting chassis solution when replacing or modifying their skates. A well-balanced setup is especially important in goal, because stability, glide performance, and the direct feedback from the skates are noticeable during both practice and games.

- Product Type: Holder for goalie skates
- System: TRUE Shift Goaler
- Application: Ice hockey, goalie position
- Size: 3
- Color: black, white

Product information

- Compatibility: Compatible with the TRUE Shift Goaler system
- Package Contents: 1 piece

On goalie skates, the holder is much more than just a simple replacement part. It is one of the key components under the boot and affects how securely the blade sits and how snug the skate feels on the ice. This is particularly relevant for club players and ambitious goalies when replacing damaged parts or getting an existing skate back into playing condition. The black and white design blends seamlessly into many goalie setups.

It's important to ensure a proper fit with the existing goalie boot and to select the correct holder size 3.
